Harvest Ministry Seminary ACADEMICS

Curriculum

Harvest Ministry Seminary (HMS) is a nondenominational, evangelical seminary, which prepares students for ministries as pastors, teachers, church planters, missionaries, children's pastors, biblical counselors and church leaders across the globe.

Our purpose is to equip students with the training and impartation they need to fulfill their God assigned role in the Kingdom of God. We focus on curriculum specific to each student's calling, and create an environment in which students experience the anointing of God.

As a specialized ministry training institution, the primary goal of our curriculum is to enable students to become effective instruments of Christ, both personally and vocationally, while focusing on biblical, practical ministry studies.

Students focus on one course a month that helps them to learn and apply God's Word to their lives. They leave with a passion and conviction that they can then teach others.

Leading Edge

HMS' quality courses and instructor expertise combine to provide a basis for students to apply biblical truth as they learn skills of preaching, teaching, healing, witnessing, counseling, and leading. Christ's commission to go into every man's world with the message of the kingdom is realized only through the preparation and impartation available at institutions such as HMS.

The HMS student catalog is available in PDF format that requires Adobe Reader or Adobe Acrobat to view. [Please click here to download the Student handbook and Course Catalogue.](#)
